

# Industrial Conditioning Equipment "ICE"

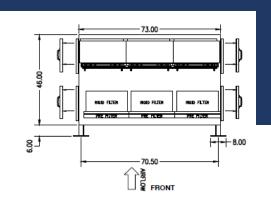

## **CASE STUDY**

Custom outside air filter box for the inlet to a Munters indirect gas heat exchanger for a spray dryer.

**Industry:** Chemical Manufacturing

**Application:** Air Purifying requirement related to a product substrate

**End User:** Global additives and specialty ingredients company **Product:** Griffin Filter Technologies Custom Air Prep Filter Box

#### **BACKGROUND**

GLM Hydro LLC is a North American based company with over 50 years of combined experience in evaporation, crystallization and drying technology for the food, dairy, pharmaceutical and chemical industries.

We are Industrial Conditioning Equipment (ICE), a manufacturer's representative for some of the highest quality industrial air treatment equipment manufactured in the industry.

Griffin Filters is a leading manufacturer of dust collection systems for over 50 years. Standard and custom models to match a wide range of application needs, from solids processing to product recovery and air pollution control.

## The Challenge:

GLM Hydro was tasked with retrofitting an existing direct-fired gas spray dryer with a Munters indirect gas heat exchanger. The existing filter box could not be configured to match the new heater and air prep units, therefore a new, customer air prep filter box was required. GLM Hydro called on ICE to assist.

### The Solution:

A 10,500 CFM, three-stage, SST custom filter box by Griffin Filter Technologies, complete with Merv 8, Activated Carbon & HEPA filtration. This 14-gauge, all-welded, vertical filter box was designed to withstand coastal ambient conditions and included
